ACADEMY OF OUR LADY OF THE SACRED HEART

NEAR FORT WAYNE, ALLEN CO., INDIANA.

This Institution, most eligibly situated six miles from the city of Fort Wayne, offers particular advantages to persons acquiring a solid, useful and ornamental education. It is easy of access, one mile east of the Academy Station, which is twenty minutes' ride from the city, on the Jackson and Saginaw Railroad. At the same distance from said city, on the Grand Rapids Railroad, is Wallen Station, two and a half miles west of the Institution.

The English course is thorough, including, besides Elementary Branches, Botany, Astronomy, Chemistry, the higher Mathematics, Belles-lettres, etc. The **French Language** is taught by competent natives of France, and spoken in the Institution, being the language of the vicinity.

Particular attention paid to **Music.**

French, Vocal Music in class, and Fancy Work form no extra charge.

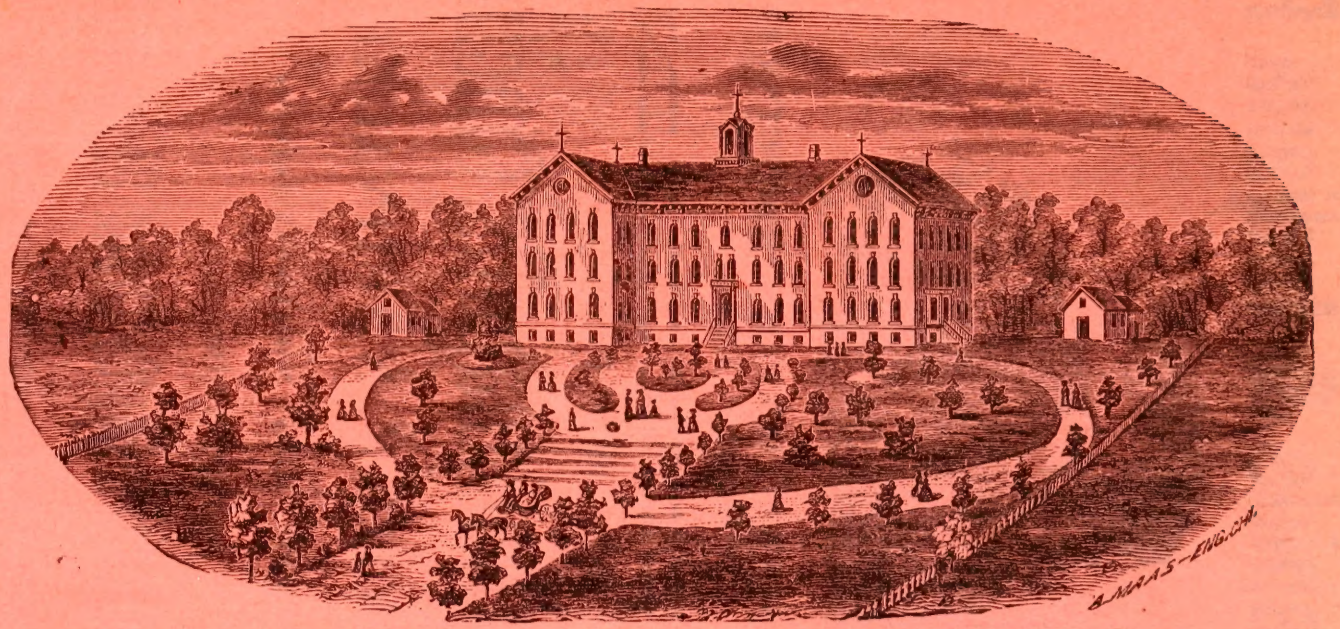

Pupils received at all times during the year, Non-Catholic pupils required (only for the sake of uniformity) to assist at the public exercises with propriety and decorum.

No uniform required. Letters sent and received subject to inspection.

PAYMENT REQUIRED HALF-YEARLY IN ADVANCE.

Books and Fancy Work can be had at the Institution at current prices.

Each pupil should have 4 towels; 4 napkins; 1 knife, fork, spoons, goblet; 1 dressing gown; 2 black aprons; 4 changes of linen; summer and winter balmorals.

Conducted by the Sisters of the Holy Cross.

Great expense, in this Institution, is not a necessary attendant upon a thorough education—the terms being placed at a rate which, it is hoped, will prove an incentive to all who appreciate an academical course. Weekly notes, monthly bulletins, semi-annual examinations, and public distribution of premiums at the end of the scholastic year, are among the many means in use for exciting a laudable emulation. Love of intellectual pleasures, as well as easy, graceful deportment, is cultivated by weekly entertainments, consisting of Music, Readings, Declamations, etc., held in the Academy.

PREFACE.

We trust that the patrons of the sixth volume of the Fort Wayne Directory will find it by far the most valuable of the series. Realizing the advantages of a township Directory of the county, we have, at a large additional expense, included in this issue a very complete list of the residents of each township in Allen County, together with a business directory of the contiguous cities and villages of Auburn, Bluffton, Columbia City, Decatur, Huntington and Kendallville, Indiana, also Antwerp and Van Wert, Ohio. On comparing the present issue with the 1879 Directory, we find that the Fort Wayne alphabetical list of names foots up (after liberal deductions in allowance for duplicates, etc.) fully 12,000 names—or an increase of some 1,800 names, which indicates a very close canvass on the part of our employees, as well as a gratifying increase in the population of the city.

HOFFMAN'S

PATENT BAND SAW MILL

FOR SAWING LOGS.

Among the many advantages this Mill has over Circular and Mulay Mills, we mention:

1st. SAVING OF LUMBER. Ordinary Saws cut five-sixteenths of an inch saw-kerf; our Band Saw takes one-twelfth. This makes a saving of 229 feet of lumber on each 1,000 feet of inch boards sawed.

2d. SAVING OF POWER.

3d. MAKING BETTER LUMBER.

4th. FREEDOM FROM DANGER.

WE ARE ALSO PREPARED TO FURNISH OUR IMPROVED PATENT

BAND SAW MACHINES FOR SCROLL SAWING.

A Mill and the small Machines can be seen in operation at our Factory in Fort Wayne. Manufactured only by

J. R. HOFFMAN & CO., Fort Wayne, Ind.

DIRECTORY

OF

AUBURN, BLUFFTON, DECATUR, COLUMBIA CITY, HUNTINGTON and KENDALLVILLE, IND., ANTWERP and VAN WERT, OHIO.

ANTWERP, OHIO.

The village of Antwerp is situated in Carryall township, Paulding Co, Ohio, between the Maumee river and Wabash & Erie canal, being distant from Toledo 71 miles and from Fort Wayne 22 miles via the W, St L & P Ry, and 4½ miles from Indiana State line. First settled in 1841 it has gradually increased in population until from 200 in 1855, the census now completed exhibits some 1500 persons. The valuable hardwood timber belt in which this place is located, is being utilized by the various factories and furnaces, and with the fine farming territory adjacent, the product of which seeks a market here, gives the village considerable prominence as a shipping point. Postmaster, Mrs. Emeline Murphy.

BLUFFTON.

This enterprising young city, the County seat of Wells County, is located on the south side of the Wabash river, 24 miles south of Fort Wayne, via the F. W. M. & C. Ry, and is the centre of heavy business interests. Large elevators, flour mills, bending works, stave mills, etc., attract capital, and with the handsome brick blocks, new $25,000 jail, six fine church edifices, large Union school, and city and county buildings, make up an unusual appearance of business thrift. The Odd Fellows, Free Masons and Knights of Honor have flourishing lodges here; and three newspapers, one Democratic, one Greenback and one Republican, dispense news to the inhabitants. Population, over 2,500; postmaster, George Arnold.

This thriving incorporated village, the county seat of Whiteley Co., is situated 19 miles west of Fort Wayne and 129 miles east of Chicago on the P., F. W. & C. Ry. at the crossing of the

Eel River Division of the W., St. L. & P. Ry. on the Blue river, and has a population of about 2,800. Large quantities of grain and stock seek shipment from this point, and quite a heavy business is transacted in all departments of trade, the merchants being, as a class, lively, energetic men, while the manufacturers are reaching out and seeking wider connections.

Among the leading industries of the village we would mention the Woolen Factory of R S Glass, which is rapidly obtaining a prominent position for excellence of work. Also the extensive works of W M Appleton, who has built up a large and increasing business in the manufacture of Carriages, Buggies and Wagons during his 25 years of manufacturing experience. He employs from 10 to 15 competent workmen and turns out over 100 vehicles of first class workmanship per annum, and has acquired an enviable reputation as a reliable, energetic business man.

The hotel accommodation is good, and the new McDonald House will be found superior in comforts and one of the best kept hotels in northern Indiana.

Two weekly papers are published, one Republican, and one Democratic, and enjoy a fair patronage.

The religious and mental culture is subserved by five churches and one school edifice; the financial interests are looked after by two sound banking institutions; and the unruly are given safe keeping in the handsome $30,000 jail. O. H. Woodworth, postmaster.

DECATUR.

The county seat of Adams Co., is situated on the Richmond Division of the Grand Rapids & Indiana R. R., 22 miles southeast of Fort Wayne at the junction of the new narrow-guage Toledo, Delphos & Burlington R. R. The St. Mary's river winds its course along the eastern edge of the town. The admirable railroad facilities, combined with the enterprise of the business community, draw large traffic from the surrounding territory, and the town presents an appearance of stir and bustle not usually noticeable in places of its size. The magnificent court house, erected during the past few years at a cost of over $100,000, rears its stately head, and is the first object to strike the eye of an approaching traveler; while several fine church and school buildings, with others in course of erection, attest to the taste of the citizens, and prove them zealous in good works. The Burt House, under the able management of "Dick" Townsend, receives the patronage of the bulk of the traveling public, and is a good hotel. Population, as shown by the late census, about 2,000. Postmaster, J. A. Blossom.

HUNTINGTON.

The seat of justice of Huntington county, with a population of 5,000, was first settled in 1833 by Gen John Tipton, of Logansport, and was known many years before its permanent settlement as Flint Springs, which was then one of the principal camping points along the Wabash valley. It is celebrated for its inexhaustible quarries of limestone. The lime from these quarries is considered the best found in any western state, and is in great demand. The quarries and kilns give employment to 300 persons. The village is located in a very productive agricultural district, on the W., St. L. & P. Ry., 118 miles southwest of Toledo and 105 miles northeast of Indianapolis, and has gas and water works, 2 graded schools, 8 churches, good county buildings and business blocks, together with 2 banks, 4 hotels—prominent among which is the Hubbell House near the business part of the city—3 weekly newspapers—*Lime City News* (independent), *Huntington Democrat*, and *Indiana Herald* (Republican)—and 3 grain elevators, which handle about 500,000 bushels of grain yearly.

In addition to its immense lime manufactories, can be found 3 planing mills, potash manufactory, 4 flour mills, pump factory, stave and heading manufactory, tannery, flax bagging manufactory, foundry and machine shop, 2 furniture factories, 4 saw mills, plow handle manufactory, brick yard, wooden stirrup manufactory, 2 breweries, carriage body and spoke and hub manufactories. Tri-weekly stage route to Warren—fare, 75c, Mount Etna, fare 50c. Express, Pacific. Telegraph, Western Union. Mail daily. Alex. W. DeLong, postmaster.

KENDALLVILLE.

Is a handsome young city situated in the east part of Noble County 11 miles from Albion the county seat, at the crossing of the Grand Rapids and Indiana Railroad, and Air Line division of Lake Shore and Michigan Southern Railway. Fort Wayne lies 28 miles south, Toledo 92 miles east and Chicago 141 miles west.

Immense quantities of farm produce seek a market here, and with the product of the valuable fruit growing district, aid in making a considerable item of export. The manufacturing interest is also heavy, the large works of Flint, Walling & Co., producing the celebrated Star Wind Mill which is shipped to all parts of the country; the carriage factory of E. J. White turns out fine work and in goodly number; the various

PLEASANT TOWNSHIP.

This township, next south of Wayne, has been greatly improved by drainage during the past few years, and now boasts as fine farming lands as may be found in "old Allen." There is a postoffice at Sheldon, a village situated 11 miles due south of Fort Wayne, via F. W., M. & C. R. R., at which point we find 2 saw mills, 2 general stores, a hotel, etc, and observe the fact that immense quantities of grain seek shipment hence.

At this point is located the Carriage Factory of Andrew J. Taylor, who, during the past 36 years (12 at Sheldon), has carried on a most successful business, and is known throughout the length and breadth of this and adjoining States. Mr. Taylor employs some 45 hands and turns out 35 to 40 carriages of various kinds every month. These he sells at auction only, and buyers come from far and near to attend the sales. By improvements of his own invention he overcomes difficulties apparently insuperable in the way of comfort and convenience in carriages, and all work leaving his establishment is perfect and guaranteed to be of the best. Each piece is duplicated, and it therefore is easy to repair any damage which may occur.

A. H. Andrews & Co.,

The Burr Bed Folded.

A good Folding Bed has long been called for. The BURR BED is the result of many years study and experiment; it received the only Silver Medal ever given in the United States for a Folding Bed.

These Beds fold into Secretaries, Bookcases, Wardrobes, etc., so that no one would suspect they were beds.

The Burr Bed Open.

They save room and rent in many cases, as they can be placed in sitting room or parlor, or can be rolled from one room to another.

They have Steel Spring Mattrass which folds up with all the bedding after bed is made up.

The Bed is perfectly ventilated, and in all respects guaranteed satisfactory.
